

SCORE

352. FIND

Find a cul-de-sac with an electricity pylon at the dead end.

Stand under the wire.

The 17 should find their pulse rates in their wrists.

Everyone should listen to the pitch of the electricity in the wires.

On a count of 3, record all members humming with the wire, each for the count of 240 heart beats.

Stop recording when the last hummer has counted 240 beats.
